SKILLS & SERVICES

- Electrical design and Installation
- Telecommunication and Networking
- Renewable Energy Solutions
- Frontend web Development

LANGUAGES

- English
- Swahili

HOBBIES & INTERESTS

- Tech blogs
- Hiking
- Music

CARRER OBJECTIVE

I'm a dynamic student and developer, building a solid foundation as a Bachelor's degree candidate in Electrical and Telecommunication Engineering at Multimedia University of Kenya. Fueling my passion for technology, I also work as a part-time Front-End Web Developer, where I translate ideas into compelling, responsive, and functional user interfaces. My unique background allows me to bridge the gap between underlying engineering principles and practical digital applications.

EDUCATION

Bachelor of Science in Electrical and Telecommunications Engineering
2023-2028

Multimedia University Of Kenya

Secondary School Education
2019– 2022

Kisii High School

Primary School Education
